### Skills

#### Version Control

Git | GitHub

#### REST APIs

PHP, NodeJS (JavaScript, Typescript)

#### App development

Flutter / Dart

#### Databases

- SQL (MySQL, PostgreSQL, SQLite)
- NOSQL (MongoDB, Redis)

#### Automation

GitHub Actions

#### Programming Languages

HTML, CSS, JavaScript, Typescript, PHP, C, C++, Python and Java

#### Responsive web design

### Certificates

#### Bachelor of Engineering

On going

#### GCE Ordinary Advanced Level

#### GCE Ordinary Level

### Profile

I am a Year 3 Computer Engineering student at the University of Buea, seeking a software engineering internship to leverage my proficiency in diverse programming languages, databases, and web development frameworks. I am eager to contribute to real-world projects, learn from experienced professionals, and hone my skills in a collaborative environment.

### Professional Experience

#### MCS Cameroon

##### Intern

07/2023 – 09/2023 | Douala, Cameroon

I picked up programming knowledge in PHP during this internship. I was able to contribute to the creation of the company website thanks to this.

##### Intern

06/2022 – 09/2022 | Douala, Cameroon

### Projects

#### Donjul App

11/2023 – present

Here, I developed the API  and the mobile application for a marriage planner app called **Donjul Mariage**

#### Iplans ERP

08/2023 – 12/2023

Here, I was making a web version of an ERP (enterprise resource planning) software. The software was initially a desktop application, which required a powerful computer in order to use the software.

### Education

#### Bachelor of Engineering / Computer Engineering University of Buea

10/2021 – present | Buea, Cameroon

During this formation, I learned about **object-oriented programming, the system development life cycle, software and database design**, and much more.

### Languages

English

French
